RE: Application No. OPA 11/15 + 21/15.
by Long Environment Consultants Inc

Attached: Original Objection Letter
1st batch of signed Petitions.

STOP THE RE-ZONING OF CONCESSION 18, PART LOTS 2, 3 & 4!

OUR OBJECTION is to STOP the re-zoning of Part Lots 2, 3 & 4 on Concession 18 to prevent the development of an aggregate operation.

There will be increased level of noise pollution, air pollution, vehicular(trucks) traffic will double, as 17th Line and Orangeville/Fergus Rd aka County Rd 3, will not only service Greenwood's, but also Tri-County!

ASK YOURSELF, can Tri-County ensure our public health, safety, comfort levels and the enjoyment of normal use of our own properties, along with the quality of our natural environment?

Who is Tri-County? Is our Canadian Economy going to benefit or is "our" product to be shipped to U.S.A?

What is the "real" reason for another quarry? What are they really after that our local Greenwoods' is not already supplying?

This doesn't even include the DE-VALUATION of our properties!!!

This petition is AGAINST the application of re-zoning and preventing the operations of yet another pit!
